See below!

Leland has demonstrated an extensive amount of electrical knowledge and leadership on many Water Plant and Pump Station projects in North Carolina. His dedication to quality work went beyond expectation. Leland always coordinating construction activities with the local engineer and inspector. He is very responsive to any unexpected challenges or issues at the site. Leland and his team install electrical equipment per the sealed drawings and specifications. Leland's dedication to quality work is always reflected on the finished product. Leland will add tremendous value to any electrical contractor company or engineering firm.

Thank you,

Mahmoud Bathich, P.E.*
